

Valmec provides an array of specialist operations and maintenance services to the Energy, Water, and Resources sectors.

ROTATING EQUIPMENT SERVICE & MAINTENANCE

- ✓ Gas compression maintenance
- ✓ Generator set maintenance
- ✓ Gas engine overhauls
- ✓ Gas compressor overhauls
- ✓ Type B certification and inspection
- ✓ Electric motors maintenance
- ✓ HPU repair and maintenance
- ✓ Pump maintenance
- ✓ Commissioning rotatable or new assets
- ✓ OEM trained and experienced field and workshop technicians
- ✓ Scheduled, breakdown and emergency services
- ✓ OEM trained reliability engineering support for preventative and predictive maintenance
- ✓ OEM training and support to customers
- ✓ Componentry machining and reconditioning of compressor valves, packing cases and engine cylinder heads

PRODUCTS & SPARE PARTS

- ✓ Natural gas engines
- ✓ Engines
- ✓ Packaged power generators
- ✓ Reciprocating and screw compressors
- ✓ Integral compressors
- ✓ Genuine OEM parts
- ✓ Aftermarket spare parts
- ✓ Oil and lubricants
- ✓ Ignition components and controls
- ✓ Filters, belts, turbochargers, wastegates,
- ✓ Coolers, industrial fuel systems and fans
- ✓ Inventory management
- ✓ Procurement and logistics

FIELD OPERATIONS & MAINTENANCE

- ✓ Asset management
- ✓ Shutdowns and turnarounds
- ✓ Wellsite and wellhead maintenance
- ✓ Instrument and electrical services (including hazardous areas and high voltage)
- ✓ Pipeline operations and maintenance
- ✓ Brownfield projects
- ✓ Painting, blasting and insulation removal
- ✓ Scaffolding/rope access

TESTING, INSPECTION, MONITORING & INDUSTRIAL SERVICES

- ✓ Inspection
- ✓ Conventional and advanced NDT
- ✓ Condition monitoring
- ✓ Pressure testing
- ✓ Equipment calibrations
- ✓ Valve testing and management
- ✓ Valve machining and reconditioning (including PSV's)
- ✓ Flange machining
- ✓ Chemical cleaning/flushing

ORIGIN LONG TERM SERVICE AGREEMENT

Client: Origin Energy

Location: Surat Basin, QLD

Valmec currently holds a Long Term Services Agreement (LTSA) with Origin Energy, offering preventative and corrective maintenance services to their Spring Gully operations, and has extended the scope of works to cover Wellsite maintenance.

SANTOS WAUKESHA OVERHAUL PROGRAM

Client: Santos

Location: Fairview, QLD

Valmec was awarded contract work on the Santos Fairview site to service their compression assets including an overhaul and upgrade on their Waukesha GSI engine and a 6-year service on their Ariel reciprocating compressor.

ORBOST GAS PLANT OVERHAUL

Client: APA Group

Location: Newmerella, VIC

Valmec was awarded the APA Orbost Gas Plant Compression Overhaul contract to provide goods and services to three gas compressor packages (including overhaul, annual service and various commissioning activities).

SYDNEY WATER JENBACHER OVERHAUL

Client: Sydney Water

Location: Cronulla, NSW

Valmec was contracted to execute a major 40,000-hour overhaul on a Jenbacher 316 gas engine at Sydney Water's Cronulla's Wastewater Treatment Plant (WWTP).

DAANDINE FUEL GAS SCREW COMPRESSOR

Client: Arrow Energy

Location: Dalby, QLD

Valmec was engaged to supply a new screw compressor package to Arrow's Daandine compressor station for the purpose of providing fuel gas to ten gas compressors, boosting compressor station output.

BHSGP COMPRESSOR RESTAGING

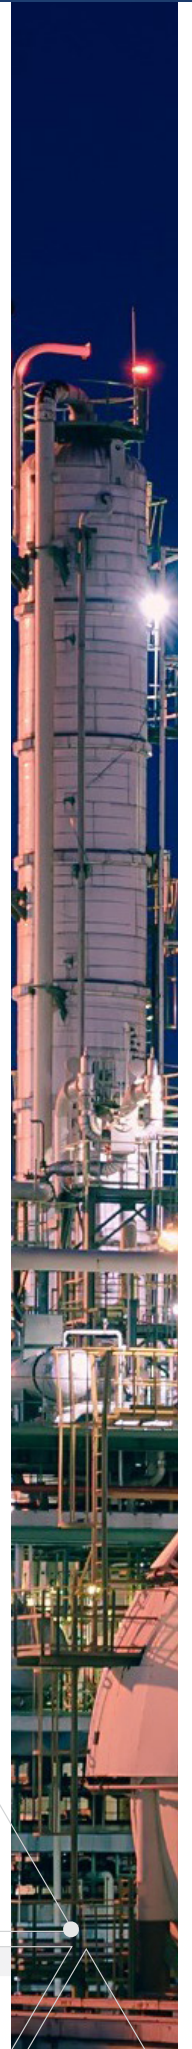

Client: Beach Energy

Location: Perth Basin, WA

Valmec has entered into a 5-year Master Goods and Services Agreement (MGSA) with Beach Energy to provide maintenance services at the Beharra Springs Gas Plant (BHSGP) in the Perth Basin.

Valmec Services offers new OEM and remanufactured parts for natural gas compressors, industrial engines and production and processing equipment.
